

HEX WASP

MSRP \$299

Designed for low-profile, direct mounting, the HEX™ Wasp™ is perfectly suited for compact applications like today's concealed carry pistols and offset rifle mounting. The Wasp is always powered and features an auto-dimming sensor which regulates proper dot brightness based on ever changing ambient light conditions. Precision machined from 6061 T6 Hardcoat anodized aluminum and outfitted with a scratch resistant, anti-glare glass lens, the HEX Wasp is a rugged, reliable companion for your optics ready everyday carry.
